SAB MEDICAL AID SCHEME DIGITAL CARDS

Digital cards streamline access to membership details

SABMAS introduced a digital medical scheme membership card as a digital solution to keeping a membership card with our members.

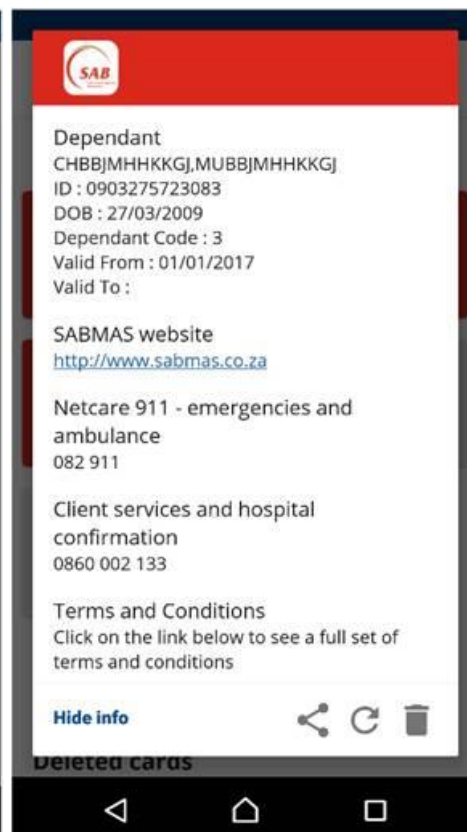

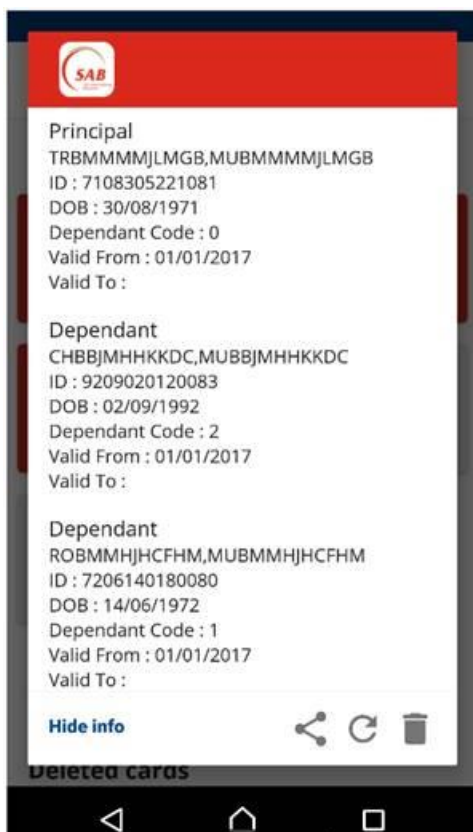

SABMAS gives members access to a **digital membership card** on their smartphone. It is a **safe** and **convenient** way to store, access and view their membership details.

Healthcare providers can use the information on the digital card to **identify members** of SAB Medical Aid Scheme and to **confirm their membership status**.

How to get a digital card

- Log into the Discovery App
- Under the menu icon, select **Medical Aid**
- Then select **Digital cards**
- Select the applicable members' (principal or dependant) card
- **Upload a photo** via your phone gallery in order to view the digital card
- Once the image is loaded, the digital card is available.

Below is an example of the details on the digital card

The card can be shared electronically, should the practice require a copy.

How to share the card electronically

- Click the 'Share icon'  or  (for IOS)
- Select method of sharing, example: email, WhatsApp, etc.
- Insert recipient details (email address / cell phone number)
- Send details

Advantages of using digital cards

The digital card serves the same purpose as the plastic card but it is **more secure** because the digital card can be personalised with a photo of the main member.

Another benefit is that the digital card keeps **membership information up to date** in real time.
